

Frequently asked questions

1. Why can't plastic bags be recycled?

Although plastic bags and other plastics are recyclable, they should be put in your grey bin as they cannot currently be recycled through the process the Council uses. Plastic bags can be returned to various supermarkets for recycling.

2. What sacks can I use for my food waste?

You can use compostable sacks (conforming to EN13432) to put food waste in. These can be bought at various shops and supermarkets. Please do not use biodegradable or normal plastic bags or sacks.

3. What if I don't have enough space in my grey refuse bin?

If you recycle and compost as much as possible in your other bins, you will be surprised how little waste will be left. If you are really struggling, please contact us.

4. What do we do with nappies?

Disposable nappies should be put in your grey bin as these cannot currently be recycled. For information on reusable nappies, please contact Warwickshire County Council on 01926 412593.

5. What happens to my recycling?

Mixed recycling is taken to a Material Recycling Facility in Ettington where it is separated. Materials are then transported to reprocessing facilities where they are made into new products.

6. What happens to the contents of my green bin?

Garden and food waste is taken to an In-vessel Composting plant at Ufton near Southam where the material is treated and turned into compost.

7. What happens to the contents of my grey refuse bin?

Refuse is either taken to a landfill site in Bubbenhall or an Energy from Waste facility at Coventry.

Your Guide to the kerbside household waste and recycling collection service

We currently recycle or compost nearly 60% of household waste that is collected from households in the district. This puts us in the top 10 performing Councils in the country. With your help we can do even more.

We have listened to your comments and questions. This leaflet sets out detailed information about what you should put in each of your wheeled bins.

 recycle for Stratford District

Recycling Collection

Please remember to put materials in loose and not in plastic bags. Do not put any plastic bags, black sacks or compostable bags in your blue-lidded recycling bin as these cannot currently be recycled.

YES PLEASE

NO THANK YOU
