Dear Madam,

Tax levy etc.

Re your letter of 20.5.24. I must query your use of the word 'forensic'. Dictionary definition 'relating to or denoting the application of scientific methods/techniques for investigating crime'. Do you therefore believe that our parish council is of that kind?

Your December 13th meeting of 2023 is not available to view on the net. It states page 404 unavailable.

The lighting situation is unclear. When Mr. Steadman was chairman of the council it was agreed that no street lights would exist in the parish due to cost and advertising the area to passing villains, your letter indicates that we are contributing to some lighting!

Sleeping Policemen northern end of School Road, the quieter section of this Road. We do not have any this end of the road at its busiest point. Obviously it would slow the noisy polluting heavy lorries down going to and from Angus fruits! Some years ago it was muted that Angus Fruits would put in a rear exit entrance onto Evesham Road. Nothing happened. It would have separated the abuse of the company from the habited area. You say no Problems with Angus Fruits! You should live here!

Amenity mowing. Very little is done these days by Limebridge.

You have not mentioned the dog effluent. The parish councillors should police the owners of dogs for breaches of hygiene .

What is the extreme financial pressure you are under? Who has caused it? Why should we the overburdened rate payer and tax payer foot the deficit?

You say an audit of the parish council has been carried out internally indicating insufficient funds for expenses and emergencies. You have said there are no expenses incurred by councillors, so why all of a sudden have you got this funding problem?

M. M. Bright.
